PACKAGING

Preforma 26 strip is sold as 25. They are shipped in multiples of 100 (4 strips). The packaging setup allows us to put either 100, 200, or 300 in a box. That determination will depend on the product size at shipping time. Most products in the Preforma 26 strip will be shipped 300 in a box.

A minimum order will be 300 plants (12 strips) if only the Preforma 26 strip is ordered. Once 300 plants are ordered, then the increments will be every 100 plants for even boxing for shipping. Please remember that for customers either picking up product or having it delivered by Co-op Delivery, those orders do not have to be multiples of 100.

Kwik Kombos are in a larger Preforma plug in multiples of 17 per strip. This 17 strip has the same width and length as the Preforma 26 strip mentioned above. These 17 strips can be packaged with the Preforma 26 strip.

Ellepot 18 (Regal Geraniums & Dipladenia) and 24 strips (Grasses & Spikes) are 1/2 the width of a standard tray. Both Ellepot 18 and 24 strips are shipped in multiples of 4 strips. Each box contains 4 strips. These cannot be combined in boxes with the Preforma 26 strip or the Kwik Kombo 17 strip. A minimum order of only these strips would be 8 strips to fill two boxes. For even boxing for freight, orders must have increments of four strips of these items.

Assortment trays are true size plants and will ship two per box. This tray uses the same box as Ellepot 18 and 24 strips. A single assortment tray can be combined with two Ellepot 18 strips or two 24 strips to fill a box.

What would be a minimum order when combining different trays? If you have four trays of either the 18 Ellepot or 24 trays, then you would need 8 strips (200 plants) of the Preforma 26.
